

SIERRA

WHERE PERFORMANCE AND VALUE MEET

Sierra is a high yielding, high oleic hybrid best suited to full season environments. This consistent performer offers an economical option for growers interested in growing a non-herbicide tolerant oilseed hybrid.

PRIMARY MARKET: 🔥 High Oleic Crush

Additional Market Options: Bird Food

Herbicide Trait: None

Downy Mildew Resistant: No

Maturity: Medium-Late / Group 5

MANAGEMENT RECOMMENDATIONS

- Recommended planting rate:
18,000-23,000 plants per acre
- Performs best in southern production areas

A full season high oleic
hybrid for growers that prefer a
conventional production system.

NUSEED - BRECKENRIDGE, MN

SEED TREATMENT

Nuseed hybrids are treated with fungicide and insecticide seed treatment to protect your seed investment.

KEY FEATURES

- High oleic, conventional
- Great stalk and roots
- Best suited for full season, high-yield environments
- Uniform single-cross hybrid
