# IMPACT™

The word "IMPACT" is written in a large, bold, dark brown sans-serif font. A green leaf icon is positioned to the right of the letters "A" and "C". The leaf is stylized with a white outline and a gradient of green. The background of the top left corner features a pattern of small, dark grey dots.

MAKE YOURS.

---

**CORN & SOYBEANS**

---

*DISTRIBUTED BY LEGEND SEEDS, INC.*

A close-up photograph of soybean plants in a field. The leaves are bright green and have a distinct pinnate structure. The background is slightly blurred, showing more of the field under a clear sky. The bottom right corner of the image has a pattern of small, dark grey dots.

---

***As a fiercely independent seed company, Legend Seeds takes pride in being the ONE source for our customers' seed & biological needs.***

Legend Seeds is pleased to be the sole distributor of **IMPACT** brand corn and soybeans. The **IMPACT** brand consists of a 102 day corn hybrid and both Enlist E3® and LibertyLink® GT27® soybean varieties ranging from 0.02 - 4.6 relative maturities.

Through this distributor, Partners Brand is proud to access these technologies, ensuring the most innovative and high-yielding seed solutions available to maximize crop performance and profitability.

### 002E265 0.02

**IMPACT**

Plant Type <b>U</b>	Plant Height <b>MT</b>	PRR Gene <b>None</b>	
------------------------	---------------------------	-------------------------	--

- Medium-tall, upright plant structure
- Very good emergence and early season vigor
- Good stress tolerance and good standability
- Brown Stem Rot resistant

**BENEFITS**

EMERGENCE	8
LODGING	7

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	6
SCLEROTINIA WHITE MOLD	6

### 008E453N 0.08

**IMPACT**

Plant Type <b>B</b>	Plant Height <b>M</b>	PRR Gene <b>Rps 3a</b>	
------------------------	--------------------------	---------------------------	--

- Key release: big yield jump
- Very early line with SCN protection
- SCN/Rps 3a/IDC for a very strong agronomic package
- Lateral branching provides wide yield expression across row

**BENEFITS**

EMERGENCE	8
LODGING	7

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7
SCLEROTINIA WHITE MOLD	6

### 01E553N 0.1

**IMPACT**

Plant Type <b>SB</b>	Plant Height <b>MT</b>	PRR Gene <b>Rps 3a</b>		<b>NEW</b>
-------------------------	---------------------------	---------------------------	--	------------

- Excellent Iron Deficiency Chlorosis tolerance
- Very good Phytophthora Root Rot resistance
- One day earlier than 01E405N
- Genetically different from previous Impact lines

**BENEFITS**

EMERGENCE	8
LODGING	7

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	8
SCLEROTINIA WHITE MOLD	7

### 03E435N 0.3

**IMPACT**

Plant Type <b>SB</b>	Plant Height <b>M</b>	PRR Gene <b>Rps 3a</b>	
-------------------------	--------------------------	---------------------------	--

- Yield and agronomic upgrade over 03E000N
- Salt Excluder gene on this early line
- Excellent stress tolerance bean
- SCN/Rps 3a/ IDC better than 03E000N

**BENEFITS**

EMERGENCE	8
LODGING	8

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7
SCLEROTINIA WHITE MOLD	7

### 03E553N 0.3

**IMPACT**

Plant Type <b>SB</b>	Plant Height <b>MT</b>	PRR Gene <b>Rps 3a</b>		<b>NEW</b>
-------------------------	---------------------------	---------------------------	--	------------

- Very good Phytophthora Root Rot protection
- Very good Iron Deficiency Chlorosis tolerance plus Rps 3a Phytophthora gene
- Broadly adaptable across early group 0 acres
- Resistance to Brown Stem Rot

**BENEFITS**

EMERGENCE	8
LODGING	7

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7
SCLEROTINIA WHITE MOLD	6

### 05E453N 0.5

**IMPACT**

Plant Type <b>SB</b>	Plant Height <b>MT</b>	PRR Gene <b>Rps 3a</b>	
-------------------------	---------------------------	---------------------------	--

- Good standability and medium-tall height
- Good to very good Iron Deficiency Chlorosis improvement over 05E256N
- Yield level change over 05E256N
- Bigger plant style than the 05E256N

**BENEFITS**

EMERGENCE	8
LODGING	7

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7
SCLEROTINIA WHITE MOLD	7

### 06E553N 0.6

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>M</b>	PRR Gene <b>Rps 1c</b>	
-------------------------	--------------------------	---------------------------	--

**NEW**

- Key release at 0.6 maturity with Peking
- Good Iron Deficiency Chlorosis tolerance
- Above average Sclerotinia White Mold & Charcoal Rot tolerance

**BENEFITS**

EMERGENCE	8.5
LODGING	7.5

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7.5
SCLEROTINIA WHITE MOLD	6.5

### 07E165N 0.7

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>M</b>	PRR Gene <b>Rps 1c + Rps 3a</b>	
-------------------------	--------------------------	------------------------------------	--

- Very good stress tolerance with good standability
- Good Iron Deficiency Chlorosis tolerance
- Double stack Phytophthora Root Rot gene with Rps 1c + Rps 3a and very good field tolerance
- Improved Sclerotinia White Mold and standability

**BENEFITS**

EMERGENCE	8.5
LODGING	7.5

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7.5
SCLEROTINIA WHITE MOLD	6.5

### 09E345N 0.9

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>M</b>	PRR Gene <b>Rps 3a</b>	
-------------------------	--------------------------	---------------------------	--

- Very good Phytophthora Root Rot field tolerance
- Good Iron Deficiency Chlorosis tolerance
- Peking SCN marker
- Very good stress tolerance

**BENEFITS**

EMERGENCE	8.5
LODGING	7.5

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7.5
---------------------------	-----

### 11E453N 1.1

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>MT</b>	PRR Gene <b>Rps 3a</b>	
-------------------------	---------------------------	---------------------------	--

- Versatile, broad acre variety with Iron Deficiency Chlorosis
- Peking SCN marker
- Iron Deficiency Chlorosis comparable to 10E125N
- Good Sudden Death Syndrome tolerance

**BENEFITS**

EMERGENCE	8.5
LODGING	7.5

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7.5
SCLEROTINIA WHITE MOLD	6.5

### 12E553N 1.2

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>MT</b>	PRR Gene <b>Rps1cH3a</b>	
-------------------------	---------------------------	-----------------------------	--

**NEW**

- Brings Brown Stem Rot tolerance over 13E245N
- Very good Sclerotinia White Mold tolerance
- Good Iron Deficiency Chlorosis tolerance over 12E157N
- Replaces 12E157N & 13E245N with improved agronomics

**BENEFITS**

EMERGENCE	8.5
LODGING	7.5

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7.5
SCLEROTINIA WHITE MOLD	7.5

### 13E245N 1.3

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>MT</b>	PRR Gene <b>Rps 1c</b>	
-------------------------	---------------------------	---------------------------	--

- Semi-bush soybean with very good standability that easily closes a 30" row
- Very good Sudden Death Syndrome tolerance
- Phytophthora Root Rot control with a Rps 1c gene and good field tolerance
- Excels in high saline ground due to salt excluder gene

**BENEFITS**

EMERGENCE	8.5
LODGING	7.5

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7.5
SCLEROTINIA WHITE MOLD	6.5

### 14E152N 1.4

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>MT</b>	PRR Gene <b>Rps 1k</b>	
-------------------------	---------------------------	---------------------------	--

- Impressive emergence for no-till situations
- Very good standability and good stress tolerance
- Good Phytophthora Root Rot tolerance with Rps 1k gene
- Improved Sudden Death Syndrome and Sclerotinia White Mold tolerances

**BENEFITS**

EMERGENCE	8.5
LODGING	8.0

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	6.5
SCLEROTINIA WHITE MOLD	7.5

### 14E565N 1.4

**IMPACT** SCN NEW

Plant Type <b>SB</b>	Plant Height <b>MT</b>	PRR Gene <b>Rps1c 3a</b>	
-------------------------	---------------------------	-----------------------------	--

- Very important release: Yield & Iron Deficiency Chlorosis
- Very good Charcoal Root Rot tolerance
- Very solid agronomic package with improved yield
- Better Iron Deficiency Chlorosis tolerance than 12E157N and 13E245N

**BENEFITS**

EMERGENCE	8.5
LODGING	7.5

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	8.5
SCLEROTINIA WHITE MOLD	7.5

### 16E435N 1.6

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>M</b>	PRR Gene <b>NG</b>	
-------------------------	--------------------------	-----------------------	--

- Overall performance with eastern movement into WI and MI
- Frogeye resistant with SCN
- Resistant to Brown Stem Rot and Stem Canker
- Competitive yield with 17E335N

**BENEFITS**

EMERGENCE	8.5
LODGING	7.5

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	6.5
SCLEROTINIA WHITE MOLD	7.5

### 17E335N 1.7

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>M</b>	PRR Gene <b>Rps 1k</b>	
-------------------------	--------------------------	---------------------------	--

- Very good standability
- Consistent performance with Sclerotinia White Mold, Sudden Death Syndrome and Iron Deficiency Chlorosis tolerances
- Dependable across yield environments
- Wide area of adaptation, moves well east to west and north to south

**BENEFITS**

EMERGENCE	8.5
LODGING	7.5

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7.5
SCLEROTINIA WHITE MOLD	7.5

### 18E245N 1.8

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>M</b>	PRR Gene <b>Rps 3a</b>	
-------------------------	--------------------------	---------------------------	--

- Strong Sudden Death Syndrome tolerance
- Rps 3a gene with very good Phytophthora Root Rot field tolerance
- Very good stress tolerance and good standability
- Very Good Charcoal Root Rot tolerance

**BENEFITS**

EMERGENCE	8.5
LODGING	7.5

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	5.5
SCLEROTINIA WHITE MOLD	6.5

### 19E453N 1.9

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>M</b>	PRR Gene <b>Rps 1k</b>	
-------------------------	--------------------------	---------------------------	--

**NEW**

- Key release: Peking with SWM and IDC tolerance
- Extra pop across high yield environments
- Rps 1k gene for Phytophthora Root Rot tolerance
- Proven performance over 20E343N and 21E162N in 2 year data

**BENEFITS**

EMERGENCE	8
LODGING	8

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7
SCLEROTINIA WHITE MOLD	7

### 19E536P 1.9

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>MT</b>	PRR Gene <b>Rps3a</b>	Stem Canker <b>R</b>	
-------------------------	---------------------------	--------------------------	-------------------------	--

**NEW**

- Tremendous yield that works across broad acres
- SDS & SWM scores hold up well in tough environments
- Solid stress tolerance with emergence & standability
- Breakthrough genetics with Peking SCN & Rps3a PRR gene

**BENEFITS**

EMERGENCE	8
LODGING	8

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	8
SCLEROTINIA WHITE MOLD	8

### 20E343N 2.0

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>MT</b>	PRR Gene <b>Rps 1k</b>	
-------------------------	---------------------------	---------------------------	--

- Very good Sudden Death Syndrome tolerance
- Very good stress tolerance
- Rps 1k Phytophthora Root Rot gene with good field tolerance
- Improved Sclerotinia White Mold and Iron Deficiency Chlorosis tolerances

**BENEFITS**

EMERGENCE	8
LODGING	7

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7
SCLEROTINIA WHITE MOLD	7

### 22E453N 2.2

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>MT</b>	PRR Gene <b>Rps 1a3a</b>	
-------------------------	---------------------------	-----------------------------	--

**NEW**

- Great plant style for all acres
- Medium-tall to tall plant with good standability
- Very good Iron Deficiency Chlorosis
- Very good Sclerotinia White Mold tolerance

**BENEFITS**

EMERGENCE	8
LODGING	7

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	8
SCLEROTINIA WHITE MOLD	8

### 23E534P 2.3

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>MT</b>	PRR Gene <b>NG</b>	Stem Canker <b>R</b>	
-------------------------	---------------------------	-----------------------	-------------------------	--

**NEW**

- Covers the entire early group 2 market
- Dominant yield across all yield environments
- Solid plant style with Peking SCN & solid PRR field tolerance
- Excellent emergence with super clean look

**BENEFITS**

EMERGENCE	8
LODGING	8

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7
SCLEROTINIA WHITE MOLD	7

### 24E453N 2.4

**IMPACT** SCN

Plant Type <b>SB</b>	Plant Height <b>M</b>	PRR Gene <b>Rps 1k</b>	
-------------------------	--------------------------	---------------------------	--

- Key line to take over RM 2.4 acres
- Use across all soil types and yield environments
- Nice plant style with medium + height
- Good standability

**BENEFITS**

EMERGENCE	8
LODGING	7

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	6
SCLEROTINIA WHITE MOLD	6

### 25E105N 2.5

**IMPACT** SCN

Plant Type	Plant Height	PRR Gene	Stem Canker
B	T	NG	R

Enlist E3 SOYBEANS

- Dominant yields with great seed size
- Excellent mobility across variable yield environments
- Great emergence with SCN protection

**BENEFITS**

EMERGENCE	8.5
LODGING	7.0

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	8.0
SUDDEN DEATH SYNDROME	7.0

### 27E506P 2.7

**IMPACT** SCN **NEW**

Plant Type	Plant Height	PRR Gene	Stem Canker
SB	MT	Rps1k	R

Enlist E3 SOYBEANS

- Consistent performance across many tests, years & environments
- Defense package PRR, BSR, Stem Canker, SDS has it all
- Dominant yield with excellent movement east to west
- Peking, standability, all soils, multi-year data this is a proven product

**BENEFITS**

EMERGENCE	8.0
LODGING	7.5

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	6.0
SUDDEN DEATH SYNDROME	7.0

### 29E554N 2.9

**IMPACT** SCN **NEW**

Plant Type	Plant Height	PRR Gene
SB-B	MT	Rps 1k

Enlist E3 SOYBEANS

- Gorgeous line at 2.9 that brings Peking + Rps 1k to late group 2
- Excellent standability and an attractive look
- Higher pod placement on main stem and lateral branches
- Good Sudden Death Syndrome tolerance

**BENEFITS**

EMERGENCE	8.0
LODGING	7.0

**TOLERANCES**

IRON DEFICIENCY CHLOROSIS	7.0
SUDDEN DEATH SYNDROME	7.0

### 30E447NS 3.0

**IMPACT** SCN **STS**

Plant Type	Plant Height	PRR Gene	Stem Canker
B	MT	NG	R

Enlist E3 SOYBEANS

- Multi-year data with exceptional results
- Tall plant that stands very well
- PRR tolerance at a whole new level, shares stud PB 3419 parent
- Consistent performance across a wide geography

**BENEFITS**

EMERGENCE	8.5
LODGING	8.0

## ENLIST® WEED CONTROL SYSTEM— PROVEN CONTROL OF TOUGH WEEDS

Enlist Duo® and Enlist One® herbicides with Colex-D® technology are the only herbicides containing 2,4-D that are authorized for preemergence and postemergence use on Enlist® crops.

SOYBEANS
2,4-D choline | Glyphosate | Glufosinate

CORN
2,4-D choline | Glyphosate | Glufosinate | FOP Herbicides

**Enlist Duo®**  
COLEX-D® technology  
HERBICIDE

- Convenient proprietary blend of 2,4-D choline and glyphosate
- The two sites of action work together to deliver control of yield-robbing weeds and help prevent resistance

**Enlist One®**  
COLEX-D® technology  
HERBICIDE

- Straight-goods 2,4-D choline with additional tank-mix flexibility
- Provides additional tank-mix flexibility with Liberty® herbicide and other qualified tank-mix products, allowing for a customized weed control program to fit each farm

**On-Target Application**

- 90% less drift than traditional 2,4-D
- 96% less volatile than 2,4-D ester

# Maximize your profit potential with **SOYBEAN TREATMENT PRODUCTS**

Legend Seeds offers a variety of soybean treatment packages to help you protect your investment.

**Our package options include the following soybean treatments:**

## **Yield Protector Pro+ Soybean Treatment:**

- Powered by CruiserMax Vibrance + Dynasty
- Helps reduce risks that come with early-season insect and disease pressure, delivering proven performance for establishing high stand counts vs competitive alternatives.
- Provides protection from key insects and diseases including:
  - Soybean Aphid, Bean Leaf Beetle, Grape Colaspis, Leafhopper, Seedcorn Maggot and more.
- Early-season Pythium, Phytophthora, Fusarium, seedborne Sclerotinia, seedborne Phomopsis, and enhanced Rhizoctonia protection.
- Enjoy smooth-flowing seed even on humid days.
- Receive FREE REPLANTS on YP Pro+ treated soybeans sold by Legend Seeds which reduces your out of pocket costs, should replanting be necessary.

## **Yield Protector Basic Soybean Treatment:**

- Powered by Vibrance Trio
- Provides excellent broad-spectrum disease protection and peace of mind during planting, providing soybean seedlings a strong start for higher yield potential.
- Provides broad-spectrum activity against the following early-season diseases: Pythium, Phytophthora, Rhizoctonia, Fusarium, seedborne Phomopsis, and seedborne Sclerotinia

Soy<sup>fx</sup>™ is a specific, unique combination of identified and tested microbials that elicit a positive crop response. It unlocks the plants ability to produce growth regulators and metabolites that enhance production through biosynthetic pathway efficiencies.

### **KEY BENEFITS**

- Increased yield potential
- Increased total leaf area
- Stronger stems & more branching
- Enhanced pod set & larger beans
- Improved ability to withstand stress

- The HC (High Concentration) Technology is a novel formulation process which increases bacteria concentration to ensure a greater number of bacteria on-seed, with a lower application rate. Uniquely formulated with Osmo Protective substances, TOP Technology strengthens the bacteria and increase their concentration and survival on-seed.
- The high concentration, improved stability and its formulation based on specially selected Bradyrhizobium sp., enables Rizoliq TOP to maximize nodulation and Biological Nitrogen Fixation (BNF).

### **Advantages**

- Greater concentration of bacteria and greater stability in the container
- Bacteria have a more active physiological state than those obtained with traditional methods
- Superior protection at the cell membrane level to reduce desiccation
- Greater survival on the seed surface

With more power to fight Sudden Death Syndrome (SDS) and robust nematocidal activity, Saltro® Fungicide seed treatment delivers upgraded SDS protection without early-season plant stress. Saltro helps plants emerge strong above ground and set solid roots below ground so your soybeans can reach their full genetic yield potential.

Trunemco™ is a nematode seed treatment solution that helps soybean, cotton, and corn crops thrive. This patented technology primes plant physiology, activating its defense system for superior broad-spectrum protection against nematode invasion. Trunemco microbial protection supports root health, seedling vigor, and uniform plant growth in crucial early stages. This biochemical and microbial solution is proven to provide higher yield profiles and application convenience — the kind that can make a true bottom-line difference.

# Biological Offerings

Legend Seeds is proud to offer an elite line-up of YieldMaster Solutions biological products proven to promote overall plant health and increase ROI.

**Nutriquire**

**FOR USE ON**

Corn | Soybeans | Wheat  
Alfalfa | Sugar Beets  
Potatoes | Canola | Cotton  
& More

**KEY BENEFITS**

- Enhances fertilizer by increasing plant nutrient uptake
- Improves availability of phosphorus and potassium
- Aids in unlocking nutrient tie-up caused by high or low pH soils

**In-Furrow | Foliar | UAN**

Scan QR code for full product information

**Nutriquire + terrasym**

**FOR USE ON**

Corn | Soybeans

**KEY BENEFITS**

- Improved soil nutrient uptake
- Allows for greater iron and manganese uptake
- Provides protection around the seed through competitive exclusion

**Planter Box**

Scan QR code for full product information

**Soyfx**

**FOR USE ON**

Soybeans

**KEY BENEFITS**

- More branching per plant
- Increase in flowers & pods
- Increased nodulation
- Reduce plant stress
- Aids in hail damage recovery

**In-Furrow | Foliar**

Scan QR code for full product information

**envita**

**FOR USE ON**

Corn | Soybeans | Wheat  
Alfalfa | Sugar Beets  
Potatoes | Canola | Cotton  
& More

**KEY BENEFITS**

- N-fixing bacteria that works within the plant all season long
- Works throughout the entire plant to supplement nitrogen where & when it's needed
- Easy to tank mix and apply in-furrow or foliar

**In-Furrow | Foliar**

To learn more, visit [yieldmastersolutions.com](http://yieldmastersolutions.com) for more information.

Seeds containing the LibertyLink® trait may be protected under one or more U.S. patents and may be planted only to produce one (1) commercial crop in a single season, and only after signing a BASF Grower Technology Agreement. It is illegal to save seeds containing the LibertyLink trait for use as planting seed or for transfer to others for use as planting seed.

LibertyLink® GT27® soybeans offer triple stack tolerance to Liberty, glyphosate, and, in select counties specified on the label, the first HPPD based herbicide for soybeans—Alite™ 27. Other HPPD herbicides not labeled for use with LibertyLink GT27 or isoxaflutole-resistant soybeans may cause significant crop injury. Alite 27 herbicide is only available for use in labeled counties.

Always read and follow label directions. Alite 27 is a restricted use herbicide. Alite, Liberty, and LibertyLink are registered trademarks of BASF. GT27 is a registered trademark of M.S. Technologies, L.L.C. MS Technologies is a trademark of M.S. Technologies, L.L.C. ©2020 BASF Corporation / M.S. Technologies, L.L.C. All Rights Reserved.

Enlist E3® soybeans contain the Enlist E3 trait that provides crop safety for over-the-top applications of glyphosate, glufosinate and 2,4-D choline herbicides featuring Colex-D® technology when applied according to label directions. 2,4-D products that do not contain Colex-D technology are not authorized for use in conjunction with Enlist E3 soybeans. Following burndown, Enlist Duo® and Enlist One® herbicides with Colex-D® technology are the only herbicides containing 2,4-D that are authorized for preemergence and postemergence use with Enlist® crops. Consult Enlist® herbicide labels for weed species controlled. Enlist Duo and Enlist One herbicides are not registered for use or sale in all states and countries; are not registered in AK, CA, CT, HI, ID, MA, ME, MT, NH, NV, OR, RI, UT, VT, WA and WY; and have additional subcounty restrictions in AL, GA, TN and TX, while existing county restrictions still remain in FL. All users must check "Bulletins Live! Two" no earlier than six months before using Enlist One or Enlist Duo. To obtain "Bulletins," consult [epa.gov/espp/](http://epa.gov/espp/), call 1-844-447-3813, or email [ESPP@epa.gov](mailto:ESPP@epa.gov). You must use the "Bulletin" valid for the month and state and county in which Enlist One or Enlist Duo are being applied. Contact your state pesticide regulatory agency if you have questions about the registration status of Enlist® herbicides in your area. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. IT IS A VIOLATION OF FEDERAL AND STATE LAW TO USE ANY PESTICIDE PRODUCT OTHER THAN IN ACCORDANCE WITH ITS LABELING. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USE IN THE STATE OF APPLICATION. USE OF PESTICIDE PRODUCTS, INCLUDING, WITHOUT LIMITATION, 2,4-D-CONTAINING PRODUCTS NOT AUTHORIZED FOR USE WITH ENLIST CROPS, MAY RESULT IN OFF-TARGET DAMAGE TO SENSITIVE CROPS/AREAS AND/OR SUSCEPTIBLE PLANTS, IN ADDITION TO CIVIL AND/OR CRIMINAL PENALTIES. Additional product-specific stewardship requirements for Enlist crops, including the Enlist Product Use Guide, can be found at [www.traitstewardship.com](http://www.traitstewardship.com).

Not all herbicides are registered for sale or use in all states or counties in the United States or all provinces in Canada. Contact your local regulatory agency to determine if a product is registered for sale or use in your area. Always read and follow label directions.

ACCIDENTAL APPLICATION OF INCOMPATIBLE HERBICIDES TO THIS VARIETY COULD RESULT IN TOTAL CROP LOSS.

YOU MUST SIGN A TECHNOLOGY USE AGREEMENT AND READ THE PRODUCT USE GUIDE PRIOR TO PLANTING.

The technology incorporated into this seed is protected under one or more U.S. patents which can be found at: [www.traitstewardship.com](http://www.traitstewardship.com).

The transgenic soybean event in Enlist E3® soybeans is jointly developed and owned by Corteva Agriscience and M.S. Technologies, L.L.C.™ Enlist, Enlist E3, the Enlist E3 logo, and Colex-D are trademarks of Corteva Agriscience and its affiliated companies.

IMPACT IS A TRADEMARK OF M.S. TECHNOLOGIES, L.L.C., WEST POINT, IA.

#### SEED USE RESTRICTION AGREEMENT

This Seed Use Restriction Agreement (the "Agreement") applies to all users ("User(s)") of the seed ("Seed") contained in this package. If you purchase the Seed, you agree that you and any person or entity, including employees, representatives, contractors and agents thereof, who plant, grow, cultivate or otherwise use the Seed, will abide by these use restrictions. If you open or cause any person or entity to open a package of Seed, you agree that you accept the terms of this Agreement, and you, your employees, representatives, contractors and agents will abide by these use restrictions.

#### SEED USE AGREEMENT

M.S. Technologies, L.L.C. ("MS TECH") and its suppliers are engaged in the business of developing and supplying for sale various varieties and/or hybrids of Seed. MS TECH and its suppliers have a substantial investment and expended substantial effort in the development and production of this seed, and in the use of subsequent production of Seed. MS TECH and its suppliers have existing contractual relationships with other distributors for the sale of seed and expectations of additional contracts for sale of seed from such distributors in the future. The purchase of the Seed includes a limited license to produce a single crop under MS TECH property rights, including (where applicable) certain U.S. patents which can be found on the package and seed tags.

In consideration of the foregoing, and in consideration of the Seed that User has been sold or otherwise granted the right to use, User hereby acknowledges and agrees that the production from the Seed will be used only for feed or processing, and unless USER has an agreement for such purposes, Seed and plants produced from Seed will not be used or sold for seed, breeding, or any variety or hybrid development or improvement purposes; these restrictions apply to all plants produced from Seed, including without limitation variant and inbred plants and Seed that may be contained in this package or grown from Seed. User acknowledges MS TECH and its suppliers have a proprietary interest in the use of subsequent production from the Seed, and agrees it would be a violation of this Agreement to allow the subsequent production of the Seed to be used to create any seed variety or seed product from said production. Any export of this Seed or its progeny from the country of purchase is strictly prohibited, except that forage or grain may be exported solely for use in feeding or processing. User agrees and acknowledges that any use of the Seed, which is forbidden by this Agreement, will constitute a misappropriation of the property of MS TECH and its suppliers and will therefore result in a breach of this Agreement. User agrees that MS TECH and/or its suppliers may bring an action to recover damages as a result of the breach of this Agreement, along with reasonable attorney fees and costs associated with any action commenced in regard thereto. User further agrees that the exclusive venue for any dispute arising under this Agreement or in connection to any breach thereof shall be in the federal or state courts for Dallas County, Iowa, and hereby irrevocably consents to the personal jurisdiction of such courts. This Agreement shall be governed under the laws of the State of Iowa.

User agrees and acknowledges that any use of the Seed, which is forbidden by this Agreement, will damage MS TECH and its suppliers' legitimate expectation of future sales of seed, and any use of Seed in violation of this Agreement will constitute an attempt to intentionally injure or destroy MS TECH and its suppliers' prospective business expectations in future sales of seed.

User agrees and acknowledges that any use of Seed from MS TECH in violation of this Agreement will cause substantial damage to MS TECH and/or its suppliers, and that if subsequent production of the Seed is used to create a seed variety or seed product, substantial damage to MS TECH and/or its suppliers for all seed varieties or seed products thereby created will be caused. This Agreement shall not limit any other rights, legal or equitable, that MS TECH and its suppliers have but shall be accumulative.

User agrees to only use agricultural herbicides that are expressly labeled for use in conjunction with the Seed and have received government approvals as specified in a product use guide.

#### NOTICE OF REQUIRED ARBITRATION

Under the seed laws of several states, arbitration, mediation or conciliation is required as a prerequisite to maintaining a legal action based upon the failure of seed to produce as represented. The consumer shall file a complaint along with the required filing fee (where applicable) with the Commissioner/Director/Secretary of Agriculture, Seed Commissioner, or Chief Agricultural Officer within such time as to permit inspection of the crops, plants or trees by the designated agency and the seller from whom the seed was purchased. A copy of the complaint shall be sent to the seller by certified or registered mail or as otherwise provided by state statute.

#### OTHER TERMS & CONDITIONS

For sale in the U.S. only. MS TECH assumes no responsibility for MS TECH's suppliers', distributors' or dealers' verbal and/or written claims, promises, warranties or actions which are contrary to MS TECH's normal operating policies. USER must notify MS TECH within fourteen (14) days of becoming aware of alleged issues regarding the quality or performance of the Seed.

#### LIMITATION OF WARRANTIES & DAMAGES

MS TECH warrants, to the extent of the purchase price and to the extent that the packaging and label have not been compromised, that the Seed is as described on the package and on the tag attached thereto within recognized tolerances. MS TECH gives no other WARRANTY, expressed or implied, of MERCHANTABILITY or FITNESS of the Seed for any particular purpose, nor any warranty against loss due to any cause, including environmental conditions, soil conditions, chemicals or farming practices, or the response of the Seed to any such conditions. MS TECH shall not be liable for indirect, incidental or consequential damages, including loss of profits. MS TECH'S LIABILITY for damages for any cause, including breach of contract, breach of warranty, and negligence, with respect to the sale of seed is LIMITED to the purchase price of the Seed. THIS REMEDY IS EXCLUSIVE. BY ACCEPTANCE OF THIS SEED OR OPENING THIS PACKAGE, USER ACCEPTS THE TERMS HEREIN. IF USER DOES NOT AGREE WITH THESE TERMS AND CONDITIONS, USER MUST RETURN THE ORIGINAL UNOPENED SEED PACKAGE TO MS TECH WITHIN TWENTY DAYS OF RECEIPT AND USER'S SOLE REMEDY SHALL BE FOR REFUND OF THE USER'S ORIGINAL PURCHASE PRICE. MS TECH may modify and amend the terms and conditions of this Agreement without notice and in its sole discretion.

MS TECH has utilized standard industry isolation and purity procedures in the production of seed products. Because of contamination factors beyond MS TECH's control, MS TECH cannot warrant or represent that MS TECH seed products are free of other transgenic corn traits or transgenic soybean traits. Words and phrases herein shall be construed as in the singular or plural number, according to the context.
